

The newest generation of Discalced Carmelites is building a monastery to last 1,000 years.

They will train your hands. You will build the future.

The Carmel of Jesus, Mary and Joseph in Elysburg, PA is seeking young people (ages 18+) interested in learning ancient techniques of:

- Stonemasonry
- Timber joinery
- Wood-fired oven building
- Sustainable small-scale agriculture
- Traditional woodworking

Collaborate with the sisters in ensuring that these lost arts are not forgotten. Attend a weekend workshop with a master craftsman or volunteer for an individualized service opportunity.
